abdulazeezsodiq403@gmail.com

OBJECTIVES

Highly skilled and motivated software engineer specializing in the MERN stack (MongoDB, Express.js, React.js, Node.js). Dedicated to delivering high-quality web applications, optimizing code, and staying current with industry trends. Seeking a challenging role to leverage technical skills and contribute to innovative projects.

PROFESSIONAL EXPERIENCE

Software Engineer | Asynctechs | Ilorin, kwara State | 2020 - 2022 [Website](#) | [GitHub](#)

- Collaborated with teams to design, develop, and maintain web application using the MERN Stack.
- Implemented RESTful APIs with Node.js and Express.js, ensuring scalability and performance
- Designed and optimized MongoDB database schemas, enhancing data retrieval efficiency.
- Developed responsive user interfaces using React.js, state management with context APIs.
- Conducted thorough testing, including unit and integration testing, using jest and others.

Frontend Engineer | United Programmer (Remote) | 2022-2023 [Website](#) | [GitHub](#)

- Assisted in the implementation of the APIs to the frontend using React js and Redux.
- Contributed to frontend development mainly focusing on user interface enhancements.
- Collaborated with other developer to troubleshoot and resolve software defects.
- Participated in code reviews, ensuring adherence to coding standards and best practices.

Freelance Software Engineer | Remote | 2021 - Present

- Developed and deployed full-stack web applications for various clients, utilizing the MERN stack.
- Designed and implemented RESTful APIs with Node.js and Express.js, ensuring security and performance.
- Created responsive and user-friendly frontends using React.js, optimizing for cross-browser compatibility.
- Managed databases using MongoDB, including schema design and performance tuning.
- Collaborated directly with clients to gather requirements, provide updates, and deliver final products within deadlines.

PROJECTS

JambFocus | Role (FrontEnd Developer) [Website](#) | [GitHub](#)

- Integrated APIs into frontend applications using React.js and Redux, focusing on user experience
- Developed responsive user interfaces and collaborated on design improvements.
- Collaborated with a developer to troubleshoot and resolve software defects.

- Conducted code reviews, maintaining high coding standards and best practices.

Foodie | Role (MERN Stack)

[Website](#) | [GitHub](#)

- Developed and built REST APIs with Node.js and Express.js, ensuring best practices in architecture.
- Integrated the API with the frontend using React.js and Redux, enhancing user interaction.
- Implemented CI/CD pipelines to automate deployment and improve code quality.
- Conducted code reviews, maintaining high coding standards and best practices.

Skills

- **Languages:** JavaScript (ES6+), HTML, CSS
- **Frontend:** React js (Next Js) Redux, HTML5, CSS3
- **Backend:** Node.js Express.js
- **DataBase:** MongoDB
- **Tools:** Git, Jest, CI/CD (CircleCI, Jenkins)

Soft Skill

Problem-Solving, Strong Communication, Adaptability, Team Collaboration.

Education and Certifications

BSc (Ed) in Educational Technology *University of Ilorin (UNILORIN)*, January 2019

FreeCodeCamp | JavaScript-algorithms and Data-structure.
